

The OHIO JOURNAL of
SCIENCE

AN INTERNATIONAL MULTIDISCIPLINARY JOURNAL

Volume 117
No. 2

EDITORIAL POLICY

General

The Ohio Journal of Science (OJS) has published peer-reviewed, original contributions to science, education, engineering, and technology since 1900. The OJS encourages submission of manuscripts relevant to Ohio, but readily considers all submissions that advance the mission of The Ohio Academy of Science to foster curiosity, discovery and innovation to benefit society. Annually the Academy distributes two printed issues: peer-reviewed April Program Abstracts and peer-reviewed full papers in December. The Ohio State University Libraries publish Open Access online OJS program abstracts and articles accepted throughout the year. Because the OJS is an international multidisciplinary journal, authors should write clearly, concisely, and avoid excessive jargon to assure broad understanding of their work by those whose fields may differ from the authors.

The OJS considers original contributions from members and non-members of the Academy in all fields of science, technology, engineering, mathematics and education. Submission of a manuscript is understood to mean that the work is *original* and *unpublished*, and is not being considered for publication elsewhere. All manuscripts considered for publication will be peer-reviewed. Any opinions expressed by reviewers are their own, and do not represent the views of The Ohio Academy of Science or the OJS.

Page Charges

Publication in *The Ohio Journal of Science* requires authors to assist in meeting distribution expenses. These costs will be assessed at \$50 per page for nonmembers. **Members of the Academy do not pay page charges to publish in *The Ohio Journal of Science*.** In multi-authored papers, the first author must be a member of the Academy at the time of publication to be eligible for the reduced member rate. Papers that exceed 12 printed pages may be charged full production costs.
